### Expectations:

A hall monitor is there to help the teachers in case a child needs to go to the bathroom or a parent needs to be paged. The Hall monitor doesn't go with the child in the washroom, but waits outside and makes sure no other adult goes/is in there. The hall monitor will stay with the child, so the teacher doesn't need to leave the class room. As this is very new, you may need to remind the teachers, that you're there to help :) The hall monitor also makes sure, that each class room has enough teachers. In case a teacher (or helper) doesn't show up, theres a list at the Welcome Center (schedule drawer) with names of backup people that can be asked to help. Each class room has a poster with all the class room ratios on it. If theres a Junior helper (under 18) in the class room, they count like an extra kid. Feel free to be in the kitchen and listen and watch the service! Just make sure that you do some rounds once in a while and peek your head through the windows. Also once you hear the last song, please let the teachers know, so they can wrap up their session.

If you can't be at church when you're a hall monitor, please make sure you find a replacement. Last but not least make sure you wear your name badge (and your red t-shirt).

Thank you so much for your willingness to serve in this way!
